

SUCCESS !!

Dr. Stacey Dent is the #1 chiropractor to see in southern Maryland.

I am currently a non-practicing chiropractor and mom who has lived in Hollywood, MD for three years. From knowledge and experience, I know a good chiropractor when I find one, and Dr. Dent is it.

I have tried other chiropractor's in the area before my family's car accident and was unsatisfied. When we got into the accident I knew I needed help and thankfully found her and made an appointment. She did a thorough exam and consultation, and found what was causing the ringing in my ears and fixed that the first day. I also had pain in my neck and upper back which is gone after my course of treatment.

Now, if I sleep wrong or feel a pinch or pain, she takes care of it, usually right away. She listens and is a very caring doctor. I recommend her for any body pain you have.
